Balistik

APGBAL
Balistik**Masterflex 44 / 48**

Apollo has redefined sub ultra-lightweight technology by creating an unbelievably lightweight yet stable design. High modulus material is filament wound around a special forming mandrel with a reduced tapered profile to create the necessary strength and unprecedented consistency around the circumference of the shaft. The result is a medium or flatter trajectory and greater speed at impact for exceptional distance, control and accuracy. Finished with an exquisite charcoal chrome appearance.

Masterflex 55 / 65

The Apollo Masterflex shafts feature premium materials and construction at an affordable price. The 55g ultralight shaft is perfect for the golfer looking to generate additional clubhead speed. The Masterflex 65's lightweight, mid-torque characteristics is excellent for all levels of golfers. Featuring unique charcoal chrome finish.

Balistik

The Balistik is a clubmaker's dream. Trim up to four distinct flexes giving you the ultimate in clubmaking flexibility! Mid torque and mid weight design fits the majority of players.

Shadow

Shadow Graphite

The Apollo Shadow is a 100% graphite shaft well suited for the mid handicapper. Apollo performance in a mid torque and mid weight design allows you to fit the majority of players.

Shadow Filament Wound

Filament wound construction eliminates the wobble found in many sheet wrapped shafts providing superior consistency from shaft to shaft.

Shadow Graphite

The Shadow UL is an excellent ultralight graphite designed for the mid handicapper. Light 62g weight allows for faster swing speeds, while the mid torque provides accuracy without feeling too harsh.

Shadow Hybrid

The new Apollo Shadow Hybrid is designed specifically for hybrid shafts. Featuring a low torque, tip stable design and a higher launch angle to get the ball up in the air quickly.

Shadow Junior

Designed specifically for juniors, the Shadow Junior Graphite features a super flexible design to help get the ball up. The 0.500" butt fits most junior grips.
