Dynamic Gold High Launch

High Launch boasts an increased launch angle delivering maximum sustained trajectory, distance, and Gold Standard control.

Dynamic Gold SL

Identical appearance and performance as Dynamic Gold but over 20 grams lighter.

Dynamic Gold

This high-flex, tour weight shaft is designed for skilled players seeking a low, penetrating ball flight for optimum control and accuracy.

Dynamic Gold with Sensicore

A frequency tuned polymer core, located inside the shaft, eliminates up to 70% of unwanted vibration at impact.

GS75

The GS75 is the lightest steel alloy golf shaft in the world. The GS75 provides improved responsiveness, durability, performance and feel.

Dynalite

Dynalite's lightweight, low-flex design has made it a favorite among golfers of all levels.

TT Lite XL

This mid-flex design is a great choice for any wood or iron. R/S shafts come in longer lengths for a wider array of assembly options.
